- 3) References AA to AD are in English. Reference AF corresponds to AD from which the relevance can be determined in English. References AE, AF and AG are accompanied by English Abstracts. Therefore no further discussion of the references is necessary.
- 4) Moreover, the enclosed Search Report indicates the degree of relevance of references AA to AC and AE to AG by category ("X" means relevant to anticipation or obviousness when considered alone; "Y" means relevant to obviousness when combined with another reference; and "A" means technological background). Thereby a concise explanation of the relevance has been provided (see MPEP §609).
- 5) The Examiner is requested to consider all references of record, return an initialed copy of the enclosed Form PTO-1449 and ensure that all references of record are printed on any patent issuing from this application.
- 6) Favorable consideration and allowance of claims 1, 2 and 29 to 54 are respectfully requested.

Respectfully submitted,
Hans LONSINGER et al.
